## Projects :

---

WorkHive: [TrentLe/WorkHive \(github.com\)](https://github.com/TrentLe/WorkHive) | <https://workhive1.herokuapp.com/>

Our website is a platform for job seekers looking for opportunities. We provide a space for companies to post job openings and for applicants to browse through and apply for positions that match their skills and interests.

TrakKings: <https://murmuring-atoll-53515.herokuapp.com/> | <https://github.com/TrentLe/Stadiums>

A Stadium tracker, which tracks and logs the stadiums that you and the events that you attended

Game Deals: <https://alexnash91.github.io/game-deals/> | <https://github.com/AlexNash91/game-deals>

The Games Deals Site allows users to enter a search query, see what games steam has for that query, and see a news feed associated with the title you select, as well as any deals available. Games that appear on the page will link to the game on the Steam store.
